## Reviewing Webcam Videos in LockDown Browser

The following fact sheet will guide you through how to view webcam videos captured during quizzes delivered to students by Respondus LockDown Browser.

If students were required to use the webcam feature (Respondus Monitor) with the quiz, instructors can access information about the quiz sessions and can review the recorded videos. Note that Respondus Monitor is intended to be a deterrent, so it's up to the instructor to determine the level of review warranted.

To review student videos:

1. Return to the LockDown Browser dashboard in the Canvas course.
2. From the context menu to the left of the quiz title, select Video Review.
3. A roster of the students in the course is shown, along with the date, time, duration, and grade for the quiz.
4. Click [ + ] to expand the section for a student.
