

Mississippi Governor's School Residence Hall Assistant in Training Program (RAT)

Did MGS have a large impact on your life? Are you interested in contributing in a real way to the MGS community for future groups of scholars?

Consider applying to the RAT program! You will be assisting the residence life staff in making the MGS experience an amazing one for our scholars. As an RAT, you'll earn valuable experience, contribute to the success of MGS in a meaningful way, and become a stronger candidate for a possible future appointment as an RA in the program.

The RATs program provides room and board for the full three weeks, but does not provide a salary. Applicants must commit to fulfilling all responsibilities and being on campus for the full three weeks. RATs will work directly with the RA staff to assist in the dorms, with recreation, and with evening and weekend activities.

Applicants who are at least 18 years of age are given preference in the admissions process. Applications are due on Wednesday, March 4th, 2015.
