MEET THE DIRECTOR- ELISE WILSON

The Career Services and Professional Development Center welcomed its new director, Elise Wilson, on August 1. Elise is a two-time graduate of The W, holding a Bachelor of Arts degree in History and a Master of Arts degree in Women's Leadership. She comes to the position with 4.5 years of experience working in employee engagement and 3.5 years of experience working in Student Affairs.

"I am honored to serve my alma mater in this capacity. We have exceptional students and further preparing them to reach their career goals is a passion of mine. I am most looking forward to partnering with university departments and stakeholders within our Columbus community to expand our students' experience here at The W," said Elise.

Andrea Stevens, Executive Director of Development and Alumni, said, "We are thrilled to have Elise lead the Career Services and Professional Development Center. She will serve as an excellent liaison between the university and our students. In addition to assisting students in securing employment and hosting job fairs, the Career Services and Professional Development Center will be providing workshops, seminars and other essential skill building tools to support career readiness for our students."

The Career Services and Professional Development Center plans to bring new career readiness programming to campus while continuing to offer help with resume writing, interview preparation, and job/internship placement.
