

Activating

your Handshake account means logging in using your single sign-on (MUW email address and password).

Completing

your Handshake account means logging in using your single sign-on (MUW email address and password) and adding at least one work experience, organization, and skill.

Completing your profile takes less than 5 minutes and can be done on the mobile app or website (muw.joinhandshake.com).

Why does this matter?

The jobs & internships that appear in your algorithm are based on the work experiences, organizations, and skills that you add to your profile.

If you don't complete your profile, employers can't connect with you, and you can't take full advantage of finding opportunities relevant to your major and career goals.

Email careers@muw.edu or call (662) 241-7619 with questions.
