

This report details the educational progress of Mississippi public school students taught by Mississippi University for Women traditional and alternate program completers. It includes statistics on their performance in the Mississippi Academic Assessment Program (MAAP) for grades 3 through 8, as well as end-of-course assessments in Algebra I, US History, Biology I, and English II. The report compares this data with statewide figures for all Mississippi public school students and those taught by cohort completers from other Educator Preparation Programs (EPPs) in the state.

The statistical findings are presented in tables sourced from the 2023 Impact Report Card, a collaborative effort between Mississippi's higher education institutions and The National Strategic Planning and Analysis Research Center (NSPARC) at Mississippi State University. These annual Impact Report Cards focus specifically on Teacher Education and Educational Leadership Programs, providing essential benchmarks for evaluating statewide educator preparation.

Utilizing de-identified data from the state data clearinghouse ensures the accuracy and depth of these reports, which are integral to supporting CAEP's annual reporting measures. The report covers data up to the 2021-2022 K-12 student test period, reflecting a deliberate two-year delay in reporting to ensure thorough analysis and accurate representation of educational outcomes.
