## PREFACE

This statistical report contains data which provide insight into the operation of the public universities in Mississippi during the summer of 1988 and the 1988-89 Regular Session. It contains the primary measures of academic production: enrollments, classes, student credit hours, and degrees awarded. It also contains the revenues and expenditures for the eight universities in Mississippi.

Enrollments are shown by semester or quarter, on-campus or off-campus. The enrollments are depicted by full-time and part-time, school/division, resident and non-resident, and full-time equivalent.

The student credit hour production is classified into fields of study according to the Classification of Instructional Programs (CIP) Taxonomy. The student credit hours are shown according to class levels, on-campus and off-campus, and regular session and summer session.

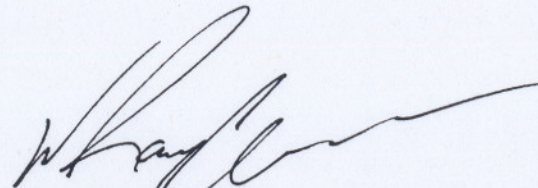

This publication also shows the number of degrees awarded from July 1, 1988, through June 30, 1989. These are broken down by baccalaureate, master's, specialist and sixth-year, and doctoral degree programs according to the Classification of Instructional Programs (CIP) system. Associate degrees and certificates awarded during the same period are displayed as well.

Actual revenues received during the fiscal year are reported according to source of income from restricted and unrestricted funds, and the percents of each source derived from total Education and General Income are shown in the report.

Information regarding actual expenditures for restricted and unrestricted purposes is reported according to functions.

Statistics for the year 1988-89 are available in other publications of the Board of Trustees. The August, 1989 statistical report includes information about enrollment, students' residences, tuition and fees, and faculty characteristics for the first term only of 1988-89.

A handwritten signature in dark ink, appearing to read 'W. Ray Cleere', with a long horizontal flourish extending to the right.
