# Self-Registration for Wdevices

Enter your MUW credentials then click Sign On.

The screenshot shows the 'Device Registration Portal' header with 'The W' logo. Below the header, there is a 'Welcome' section with the text 'Sign on for guest access.' To the right, there are two input fields: 'Username:' with the value 'jkmiller1' and 'Password:' with a masked password of ten dots. A blue 'Sign On' button is positioned below the password field.

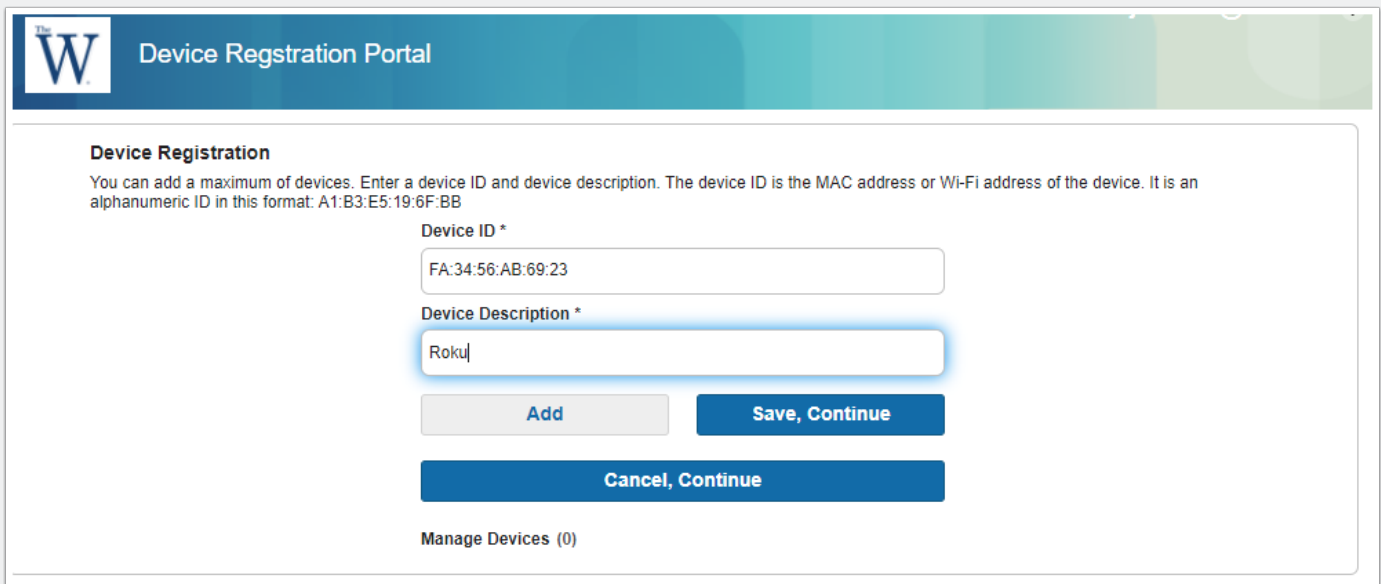

Once you have signed on, you can register up to 5 devices. Click the option 'Yes, register devices' to continue.

The screenshot shows the 'Device Registration Portal' header. Below the header, there is a 'Device Registration' section with the text: 'Do you want to register any devices at this time? This ortal is used to register your gaming devices or any devices that does not support WPA Enterprise Authethnication.' Below this text are two buttons: a blue button labeled 'No, skip registration.' and a grey button labeled 'Yes, register devices.'

# Self-Registration for Wdevices

Fill out the form with the Device ID (MAC address) and Device Description. Click 'Add' to add another device or click 'Save, Continue' to advance to next screen.

The screenshot shows a web form titled "Device Registration Portal" with a logo on the left. The form is titled "Device Registration" and includes a brief instruction: "You can add a maximum of devices. Enter a device ID and device description. The device ID is the MAC address or Wi-Fi address of the device. It is an alphanumeric ID in this format: A1:B3:E5:19:6F:BB". There are two input fields: "Device ID \*" containing "FA:34:56:AB:69:23" and "Device Description \*" containing "Roku". Below the fields are three buttons: a grey "Add" button, a blue "Save, Continue" button, and a blue "Cancel, Continue" button. At the bottom of the form, it says "Manage Devices (0)".
