On April 4th, 2025, the Undergraduate Curriculum Council met and reviewed proposals submitted by the School of Education and the College of Arts and Science. The UCC took the following actions:

College of Nursing and Health Sciences

1. Modifying an Existing Curriculum – Kinesiology Exercise Minor

Description: Inactivation of Exercise Minor

Rationale: The department discussed the current status and structure of the Exercise Science minor. It was noted that there are currently no students enrolled in the minor and that, although the catalog lists it as a 20-hour minor, the actual course load amounts to 39 hours due to prerequisite requirements.

Outcome: The UCC approved this proposal unanimously.

School of Education

2. Modifying an Existing Curriculum – Early Childhood Education

Description: ED 301 Educator Seminar (Pass/No Credit) is being added to the Course of Study for Early Childhood Education.

Rationale: Students have been uncertain of how teacher preparation works. This course will help guide them through the processes.

Outcome: The UCC approved this proposal unanimously.

3. Modifying an Existing Curriculum – Elementary Education

Description: ED 301 Educator Seminar (Pass/No Credit) is being added to the Course of Study for Elementary Education.

Rationale: Students have been uncertain of how teacher preparation works. This course will help guide them through the processes.

Outcome: The UCC approved this proposal unanimously.

The next UCC meeting will be Friday, September 5th at 1:30 p.m. via Zoom.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "RC Sample". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

RC Sample, Assoc. Prof. of Microbiology, Chair UCC
Department of Sciences and Mathematics
